

# news release

October 2007

## Think Launch. Think Web Site.

Think faster. Our new Web site makes it quick and easy to find the information you're looking for. Questions about capabilities? Explore the complete spectrum of products and services offered by Keystone Printed Specialties and Panel Prints—all on one new site. You can also view the latest news and technology, request a quote and contact customer service.

The new Web site reflects exciting changes at Keystone Printed Specialties and Panel Prints. This summer, the companies combined capabilities and locations under one, 380,000 square foot location in Old Forge, Pennsylvania. Randy Torrence, VP Sales and Marketing, comments, "Our clients are facing increased demands for faster speed-to-market and just-in-time delivery. We've responded by streamlining operations under one roof, and one Web site. With the new Web site, our customers have 24-seven access to one source that can turn jobs faster and more efficiently than ever before while delivering critical quality."

Keystone Printed Specialties and Panel Prints have launched a new Web site, [www.keystoneprint.com](http://www.keystoneprint.com). It reflects the "think yes" business philosophy embodied in every employee and made possible by the combined powerhouse capabilities of the two companies.

"With our new Web site, customers have 24-seven access to one source that can turn jobs faster and more efficiently than ever before while delivering critical quality."
